

Listening to God's Message

Good day, hope you are all well. You are all welcome to join my prayer.

Dear God,

I would like to say a prayer to God.

We are worried because of Covid-19 around the world now in Melbourne and Victoria. We want to stop and turn to you (pause) and think about you (pause) and you may want to give us a message. Help us to know your message to us.

You remind us to relax and appreciate the goodness of people helping others including the health workers, doctors, nurses, those testing people, and those serving people in supermarkets, cleaners etc.

My response to you, dear God, is THANK YOU. Because you already know what is in our hearts. You are always with us, even if we don't remember you are.

I now turn to you Mary, Mother God, and I ask you to please pray for us in our worries. Thank you. Amen.
