

JPC Update by Executive Manager - Carmel Phillips: 13 May 2020

Hoping everyone is staying safe and well. This is an update about Government guidelines relating to our Centre and Covid-19.

Indoor catch ups are permitted but limited to a maximum of five people. This could be your close family and friends, but not general community activities and gatherings like at the John Pierce Centre. All activities at JPC remain suspended until further notice.

We can not provide one on one visits in your home yet, because we want to be cautious in our return to this type of contact. People in the community can gather up to a maximum of ten people for activities such as sport or 20 people to attend funerals but we advise caution in all activities.

This morning announcements came about the opening of schools which we hope will be positive for children in their return to friendships and education. Every step must be made with caution in mind.

Again, we hope you are well and taking care of yourselves. We will make the next announcement on 31 May about the next phase in the easing of restrictions.

Staff at JPC are still working so please contact us if needed or for more information admin@jpc.org.au
