

Prayer with Gratitude

Loving Father,

We come before you, asking for your love and compassion each day. We are grateful for our government workers, Police and ADF workers especially health workers who supported us for months during the COVID lockdown. Now we are happy to see our restrictions is easing at the moment. Help us to respect each other when we go to work, or go out in the streets, in the shops, cafes when we approach to safe COVID spaces daily. We are excited to prepare for our Christmas greetings to our families and friends soon. That is something good is going to happen to us!

Thank you, Lord for listening our past prayers, today and the future.

Amen.
