

Listening to God's Message

Dear God,

You are all welcome to join my prayer.

I would like to say a prayer to God.

God, we are worried because of Covid-19 especially the Delta strain around the world now in Victoria and NSW. We also get frustrated and impatient with our continued lockdown.

Also parents who do help with their children's home schooling. Plus looking after children all day and night.

We want to stop and turn to you (pause) and think about you (pause) and you may want to give us a message. Help us to know your message to us.

You remind us to relax and appreciate the goodness of people helping others including the government people, health workers, doctors, nurses, those testing people, and those serving people in supermarkets, cleaners etc. We also appreciate the availability of technology e.g. Zoom, FaceTime, Facebook, Messenger, SMS.

My response to you, dear God, is THANK YOU. Because you already know what is in our hearts. You are always with us, even if we don't remember you are.

I now turn to you Mary, Mother God, and I ask you to please pray for us in our worries and impatience. Thank you. Amen.
